EMOTIONAL POVERTY Emotional Poverty Workshop

GOALS

- Reduce episodes of emotional explosions, anxiety, anger, and violence.
- Create a safer campus by emotionally titrating the students.
- Promote a better understanding of the adults' stages of development and contribution to the emotional safety and noise on the campus.
- Engage in better strategies that calm students and motivate better behaviors.

Between the Educator and the Student Why do students explode? Unintegrated, unregulated brain. 	What motivates behavior? The inner self 	Why do discipline strategies work with some students and not others? Bonding and attachment
At the Systems Level of the Campus How to reduce "less than" and "opposite from" experiences to reduce shame, anxiety, violence? 	Why so many discipline referrals for males? 	How do educators create emotional safety? The emotional classroom dance
